Portfolio: ashwin-angadi.web.app

I am interested in IT and everything in its orbit. I recently began to be fascinated by web programming. I am keen to gain experience in the field. I am looking for a company willing to offer me a placement among their developers. In return, I offer my full commitment and be a pleasant and friendly addition to your team. I am therefore currently looking for a job as a front-end developer.

Skills

React, Javascript, JQuery, ES6, HTML, CSS, Bootstrap, TailwindCSS, Redux

Certifications from FreeCodeCamp.org

- **Responsive Web Design - +300 hours**   (https://cert/zm2m2)
  HTML5 and **CSS** are the core concepts of this course, I further learned how to make webpages that respond to **different screen sizes** by building a photo gallery with and a magazine article layout.
- **Javascript Algorithms & Data Structures - +300 hours** (https://cert/gg9td)
  Learned from fundamentals of **Javascript** and to **ES6**, **Regular Expressions**, **Debugging**, **Basic Data Structures and Algorithms**, **Object Oriented Programming**, **Functional Programming** and **5** Final javascript projects for the certification
- **Front End Development Libraries - +300 hours**   (https://cert/tbqdy)
  Learned styling the sites with **Bootstrap**, adding logic to CSS styles with **Sass** and learned how to create powerful Single Page Applications **(SPAs)** with **React** and **Redux** and ended with **5** final React projects to complete the certification.

Front-End Projects

- **Recipe Master**   (https://app/db64e)
  It provides tasteful recipes from all over the world using **TheMealsDb API**. Built with **React** and Styled with **Tailwindcss**
- **Trade Watchlist**   (https://app/8u9wl)
  It manages the trading watchlist of companies with the information fetched from **finnHub API** and representation of price data using **APEXCHARTS API**. Built with **React** and Styled with **Tailwindcss**
- **Team Member Allocation**   (https://app/c9c7s)
  To allocate employees to the teams or remove them from the team and then route to the page where it shows the members in the teams. Built with **React** and Styled with **Bootstrap**
- Few other projects built with React and Bootstrap
  - **Calculator**   (https://app/cbt9x)
  - **Pomodoro Timer**   (https://app/g3zkk)
  - **Random Quote Machine**   (https://app/iose5)
  - **Drum Machine**   (https://app/wjyux)
