🔗 ashwin-angadi.web.app

Highly motivated front-end developer seeking a challenging position to leverage my expertise in HTML, CSS, and JavaScript to create visually stunning and user-friendly web applications. Committed to delivering high-quality code and collaborating with cross-functional teams to deliver exceptional user experiences.

## Skills - -

Proficient in **HTML**, **CSS**, **Javascript**, **Typescript**, **ReactJS**, **NextJS**, **Bootstrap**, and **Tailwind CSS**. Familiar with **Redux**, **JQuery**, and **SASS**.

## Front-End projects I worked on - -

➔ **Recipe Master**                                                       (https://app/db64e)

- ◆ **Vast Recipe Collection:** Recipe Master offers a wide range of recipes from around the world, powered by TheMealsDb API.
- ◆ **Intuitive Search and Filters:** Effortlessly find recipes based on ingredients, dietary preferences, or cuisines with Recipe Master's intuitive search and filter features.
- ◆ **Personalised Favourites:** Create a personalised collection of go-to dishes by marking recipes as favourite, with easy removal options to keep your collection up to date.

➔ **Trade Watchlist**                                                     (https://app/8u9wl)

- ◆ **Personalised Watchlist:** Effortlessly track companies of interest in real-time by adding them to your personalised watchlist, Powered by finnHub API.
- ◆ **Interactive Graphs:** Visualise historical price movements with interactive and visually appealing graphs, empowering you to identify trends and trading opportunities.
- ◆ **Comprehensive Company Information:** Gain access to key financial metrics, and fundamental analysis for each company, enabling well-informed and confident financial decision-making.

➔ **Team Member Allocator**                                               (https://app/c9c7s)

- ◆ **Effortless Employee Team Management:** Streamline the process of assigning and reassigning employees to teams with our user-friendly system.
- ◆ **Comprehensive Team Overview:** Easily review team compositions and manage employee teams efficiently on a dedicated page, ensuring optimal productivity.
